

Class 1: Social Movements in Germany

Introduction and the development of social movements

AUTHOR

Dr. Michael C. Zeller

Poll: course introduction

Take the survey at <https://forms.gle/iXweLEsJ7VTANrmGA>

- Most influential in success of a social movement?
- Any social movement organisations you are interested in studying?
- Have you taken any methods course?
- Are you familiar with any analytical software (e.g., R, Python, Stata, SPSS)?
- What is your biggest concern for this course?

Course Introduction

- What are 'social movements'?
- How this course relates to Prof. Bolleyer's lecture
- Course structure
- Learning aims
- Course assessments
- Office hours and communication
- Course website
- Q & A
- student introductions

First...

Can you
understand me?

...

- Lots of different languages represented in the room → but please don't be shy: **feel empowered to participate, even if you are not so confident in your English skills**
 - I will avoid 'calling on' people to contribute
 - when you speak, please speak up (*I'm rapidly ageing and my hearing is not what it once was*)

First task...

Read the syllabus!

- We have a shiny new (developing) website for the course
 - <https://michaelzeller.de/course-sm/>
- Before our next meeting, your task is to peruse the website
 - especially the **Syllabus** and **Readings** pages.

Defining social movements

- Broadly: *collections of people that mobilise, coordinate, and campaign for some objective*
 - We will focus on movements with *socio-political objectives*

...

- What are some examples that you know (now or historically)?

Connection to Prof. Bolleyer's lecture

- This course is one of the Grundkurse for Prof. Bolleyer's **Einführung in das politische System Deutschlands**
- This course is a detailed investigation of a related topic—not a tutorial on the material in Prof. Bolleyer's lecture
 - So—as should go without saying—for both the lecture and GK: read and attend classes

Structure of the course

Date	Class	Lecture
2025-10-16	1	Introduction and the development of social movements (SMs)
2025-10-23	2	SM theories: collective behaviour, resource mobilisation, political processes
2025-10-30	3	SM theories: framing, civil society
2025-11-06	4	Mobilisation, recruitment, participation
2025-11-13	5	Collective identity and emotions
2025-11-20	6	Organisation, strategies and tactics
2025-12-04	7	SMs and the media
2025-12-11	8	SM coalitions
2025-12-18	9	State responses
2026-01-08	10	Counter-mobilisation and countermovements
2026-01-15	11	SMs online
2026-01-22	12	SM impact
2026-01-29	13	Demobilisation
2026-02-05	14	Contemporary social movements and beyond: climate, migration

Coverage of cases within and outside Germany

- Social movements are numerous and varied
- In this course, we will consider some of the most influential/most studied movements (NB: U.S. bias in research)
- As often as possible, we will refer to a set of movements (organisations) active in Germany
 - to be introduced later

Aims

- acquire **substantive knowledge** of aspects of social movements (theory, cases) and manifestation **within Germany and elsewhere**
- enhance **critical knowledge** to evaluate research thereof
- gain familiarity with **methodological approaches** to studying social movements
- (further) develop the capacity to...
 - assess episodes and broader cycles of movement activity, especially by identifying underlying factors and comparing across contexts
 - critically evaluate reporting and research on social movements, especially by evaluating the data and methods used

Assessment: related to BRD lecture

Studiengang	Belegung	Leistungsnachweis(e)	Klausurinhalte
BA Hauptfach	VL (Vorlesung BRD) und GK (Grundkurs)	Klausur (90 Min.)	3/5 Wissensfragen und 1/3 Essayfrage
BA Nebenfach 60 ECTS	VL und GK	Klausur (90 Min.)	3/5 Wissensfragen und 1/3 Essayfrage
Lehramt Unterrichtsfach	VL und GK	Klausur (90 Min.) & Referat	3/5 Wissensfragen und 1/3 Essayfrage
BA Nebenfach 30 ECTS	nur VL	Klausur (90 Min.)	3/5 Wissensfragen kein Essay
Lehramt Didaktikfach	nur VL	Klausur (60 Min.)	2/5 Wissensfragen kein Essay
Austauschstudierende für VL	VL	Klausur (90 Min.)	3/5 Wissensfragen kein Essay
Austauschstudierende für GK	GK	Festgelegt durch GK Dozent	N/A

Die Sprache der Essayfragen (Deutsch oder Englisch) richtet sich nach der Sprache des jeweiligen GKs. Unabhängig von der Sprache der Fragestellung (oder Teil der Veranstaltung) können Studierende je nach Präferenz auf Deutsch oder Englisch antworten.

Kontakt für prüfungsrechtliche Fragen, Kursanmeldung, - wechsel, - abmeldung, Fragen zur Anmeldung zur Prüfung: studienbuero@gsi.uni-muenchen.de

Assessment: within this course

	Participation	Presentation	Essay	Klausur
BA Hauptfach	X			X
BA Nebenfach (60 ECTS)	X			X
Lehramt Unterrichtsfach	X	X	X	X
BA Nebenfach (30 ECTS)	X			X (nur VL)
Lehramt Didaktikfach	X			X (nur VL, 60 Min., 2 Wissensfragen)
Austauschstudierende für VL	X			X (nur VL)
Austauschstudierende für GK	X	X	X	

Course assessment - Participation

- No examination in this course, BUT there is in 'Einführung Politisches System der BRD'. There, you respond to an essay question from this course.
 - Exam on **2 February (Monday) at 8.00** in the [AudiMax](#)
 - 90-minutes written exam: response to 3 of 5 short-answer prompts from Prof. Bolleyer's lecture and to 1 of 3 essay prompts from this course

- attend class and actively participate
 - do required reading

Course assessment - *Presentation*

- **Presentation**
 - short (max. 20 minutes) group (2-4 students) talk on a method for studying social movements
 - A *method* is a system of data collection and analysis
 1. introduce method,
 2. explain its utility for studying social movements,
 3. [the crucial part] and *discuss one applied example*

Essay (*Hausarbeit*): Data report

- data report on a social movement phenomenon (e.g., protests events, violence, framing, news coverage)
 - why a dataset? Helpful preparation for thinking about **validity**, **reliability**, etc. → relevant for quant. and qual.
- gather and present data, generate analytical insights
- 2000-3000 words (excluding citations)
- **17 January**: short synopsis due. **7 March**: full, final report due.
- consider working with data visualisation and analysis software!
- A rule: **no drawing any data from or citing Statista or other data curation services.**

submit all assignments by email: m.zeller@lmu.de

For the paper, and writing in general...

Table III. A semiotic checklist

- | |
|--|
| <ol style="list-style-type: none"> 1. This is what I am focusing on 2. This is why it is relevant 3. This is what is known/not known (and why it needs attention) 4. This is my burning question 5. This is how I aim to address the question (theoretically/empirically) 6. This is what I did 7. This is what I found 8. This is what it means 9. This is what I add 10. This is why you should care |
|--|

Further: tools of the research trade...

- qualitative data management: e.g., MAXQDA, ATLAS.ti
- quantitative (and qual.) data analysis software: e.g., R (and R Studio), Stata
- typesetting programmes: LaTeX (through [TexStudio](#)) and RMarkdown

Typical class meeting

- Opening question(s)/discussion point(s)
 - e.g., theoretical dilemma, typology forming, news item
- Summarising lecture on theory/findings related to week's topic
 - discussion points
- Short video relevant to topic
- Discussing the reading(s)
 - highlighting important points (esp. theory, research design)
- Presentation of further research relevant to week's topic
- Summative discussion: takeaways, new ideas, lingering questions

Throughout, we will use *cases* to link *theory* to *real-world events*

Colour scheme for course slides

- Why? To make **concepts** and **important points** easier to identify and review

...

- **concepts** (dark red) - building blocks of social science, important elements in every class session
- **discussion point** (indigo) - a question or prompt to discuss as a class (essential component of a *seminar*)
- **finding** (dark orange) - a noteworthy finding from one or more studies
- **methods point** (blue) - element of research design or methodology
- **important point** (red) - something particularly noteworthy

...

- *other colours* - **variously trying to get your attention**

Office hours and communication

- best to send an email
 - michael.zeller@gsi.uni-muenchen.de
 - m.zeller@lmu.de

- 11.00 - 12.00 on Wednesdays at GSI (Oettingenstr. 67) - Room H105
- or by appointment
- Please **use your LMU email address for communication**
 - this is important for the security of the university email system

Course website

- no use of Moodle
- **we have a new, shiny, developing, purpose-built website:** <https://michaelzeller.de/course-sm/>
 - all readings available
 - slides available before class
 - in case of class cancellation, video lecture will be available

Resources

journals and data

books

- The Observatory for Political Conflict and Democracy (PolDem) (<https://poldem.eui.eu/>) data on protest events across Europe.
- Journal: [Forschungsjournal Soziale Bewegungen](#)
- Journal: [Interface - a journal for and about social movements](#)
- Journal: [Mobilization](#)
- Journal: [Partecipazione e Conflitto](#)
- Journal: [Social Movement Studies](#)
- The Centre on Social Movement Studies maintains a list of resources for social movement research: <https://cosmos.sns.it/resources/>

About me

- tell me if you have problems understanding me
 - there's an accent at work that I tragically cannot shake off
- Ph.D. in political science from Central European University (CEU)
 - specialisation in qualitative methods (QCA, [Bayesian] process tracing), but also quant. text analysis, network analysis
- researcher in funded projects on ...
 - violent/banned far-right groups and online content moderation
 - radicalisation, violent extremism, polarisation, and resilience
- current work: militant democracy; far-right activist networks; political violence (in 1970s Northern Ireland; in contemporary Italy); paths to female leadership in Asia; protest and polarisation

```

Participating in class discussions
Passing the Klausur
Studying and discussing in English
Talking about politics and political views (about movements)
Understanding abstract concepts

Quick intro to concepts

- concept formation (cf. [Adcock and Collier 2001](#))
- types of concepts

Concept formation

- **concepts** are the building blocks of social science research
 - a term denoting an abstract idea

Figure 1. The logical structure of concepts.

Concept formation

- identifying bounds of concepts
 - See Sartori (1970)
- broadly, three types of concepts in social science

...

1. **classical**: all criteria are shared by all cases

...

2. **radial**: some criteria are shared by all cases; others are not

...

3. **family resemblance**: No criterion is shared by all cases

Visualising classical/radial concepts

Classical concept (all criteria)

Radial concept (all share 'female')

Family resemblance: no criterion shared by all (e.g., games)

Classical vs. radial (Collier and Mahon 1993)

FIGURE 4

Differentiation of Classical and Radial Categories

		Classical Category: Dog			
	Category	Components			
Primary Category	Dog	A	B	C	
Secondary Categories	Retriever	A	B	C	D
	Sheepdog	A	B	C	E
	Spaniel	A	B	C	F

Note: Differentiating characteristics of secondary categories are *in addition to* those of the primary category.

A, B, and C = Hypothetical set of general attributes of dogs

D, E, and F = Hypothetical attributes that differentiate specific types of dogs

		Radial Category: Mother				
	Category	Components				
Primary Category	Mother	A	B	C	D	E
Secondary Categories	Genetic mother	A	B			
	Birth mother	A		C		
	Nurturing mother	A			D	
	Stepmother	A				E

Note: Differentiating characteristics of secondary categories are *contained within* the primary category.

A = Female

B = Provides 50% of genetic makeup

C = Gives birth to child

D = Provides nurturance

E = Married to father

Onto our topic: social movements

- conceptual framework
 - key definitions
- prelude to next two meetings
- social movements in *contention*

Tarrow (2011) - conceptual framework

Contentious politics is triggered when changing political **opportunities** and **constraints** create incentives to take action for actors who lack resources on their own. People contend through known **repertoires of contention** and expand them by creating innovations at their margins. When backed by well-structured social networks and galvanized by culturally resonant, action-oriented symbols, contentious politics leads to sustained interaction with opponents – to social movements.

Tarrow (2011) - key definitions

- **social movements** (p. 7): “sequences of contentious politics based on underlying social networks, on resonant collective action frames, and on the capacity to maintain sustained challenges against powerful opponents”
- **framing** (p. 31): “relates to the generalization of a grievance and defines the “us” and “them” in a movement’s structure of conflict and alliances.”
- **opportunities** (p. 32): “consistent – but not necessarily formal, permanent, or national – sets of clues that encourage people to engage in contentious politics.”
- **threats** (p. 32): “those factors – repression, but also the capacity of authorities to present a solid front to insurgents – that discourage contention.”

Situating movements, Tarrow (2011) concepts

COLLECTIVE ACTION

COLLECTIVE ACTION

Contentious collective action

includes *social movements*

Situating movements, Tarrow (2011) concepts

COLLECTIVE ACTION

Contentious collective action

includes *social movements*

- respond to *threats*

Situating movements, Tarrow (2011) concepts

COLLECTIVE ACTION

Contentious collective action

includes *social movements*

- exploit *opportunities*
- respond to *threats*

Situating movements, Tarrow (2011) concepts

COLLECTIVE ACTION

Contentious collective action

includes *social movements*

- socialise and mobilise constituencies
- exploit opportunities
- respond to threats

Situating movements, Tarrow (2011) concepts

COLLECTIVE ACTION

Contentious collective action

includes *social movements*

- build organisations, resources
- socialise and mobilise constituencies
- exploit opportunities
- respond to threats

Situating movements, Tarrow (2011) concepts

COLLECTIVE ACTION

Contentious collective action

includes *social movements*

- advance frames (ideologies)
- build organisations, resources
- socialise and mobilise constituencies
- exploit opportunities
- respond to threats

Situating movements, Tarrow (2011) concepts

includes *social movements*

- advance *frames* (ideologies)
- build *organisations, resources*
- *socialise* and *mobilise* constituencies
- exploit *opportunities*
- respond to *threats*

Social movements in contention (Tarrow 2011, 33)

Tarrow (2011), prelude to next two meetings

Parent Scholarship

Marx and Engels, class conflict

structuralist (leaves little room for the mechanisms that actually draw individuals in collective action)

Social Movement Studies (SMS)

Collective behaviour theory

(grievances, [relative] deprivation)

legacy for SMS: class forces and other cleavages spurring collective action

Lenin and resource mobilisation

Resource mobilisation theory

vanguardism

legacy for SMS: focus on leaders/organisers (mobilising interests) and organisations

leadership, organisations, and various resources

Gramsci and cultural hegemony

Framing and Collective identity theories

counterculture of working class can overcome bourgeois hegemonic culture

'cultural turn' (from anthropology, sociology)

legacy for SMS: constructivism, prefiguration, and movement impact on culture

forming consensus in movements

Tilly's Polity Model

Political process theory

the structure of the state/polity

opportunities, constraints, and the structure of contentious politics

legacy for SMS: repertoires of contention, WUNC (worthiness, unity, numbers, committed)

Examples of social movements?

What cases are you familiar with?

What do you know about them?

How can we categorise them?

Any questions, concerns, feedback for this class?

Anonymous feedback here: <https://forms.gle/AjHt6fcnwZxkSg4X8>
